Referred by TUSK APS SOLAR OPPOSED Docket No. E-01345A-13-0140 + E-01345A-14-0250

Edward III <ewcollins3rd@gmail.com>

Dear Commissioner,

Please reject APS and TEP's attempts to monopolize solar power. These proposals would make ratepayers pay millions for a resource that is already provided through the free market.

Don't let APS raise our rates and undercut the solar industry Arizona has worked so hard to build.

Dockets:

TEP: E-O1933A-14-0248

APS: E-01345A-13-0140

Thank you,

Sincerely,

Edward III

ARIZONA CORPORATION COMMISSION

UTILITY COMPLAINT FORM

Vice-Chairman/ Communications Director
AZ Libertarian Party
Candidate for Arizona Governor 2014
Author of: The PeaceMonger

Why APS' Proposed Use of Ratepayer Dollars to Monopolize the Solar Market Is Wrong By Barry Hess

Libertarians are not particularly fond of regulated monopolies. We favor free markets. We disagree with regulated monopolies using captive ratepayer dollars to inhibit individual choice.

For the first time anyone can remember, people now have the choice to purchase electricity from the utility or use their own. Technology and economics have combined to make rooftop solar a reasonable option for consumers, and 30,000 Arizonans have made the choice to go solar. Whether you go solar is completely up to you, but as a consumer you now have the option to do business with private companies to power your home. And tens of thousands of Arizonans are signing up and saving money for their families all across the state.

Enter the regulated monopoly.

After asking the Arizona Corporation Commission to tax rooftop solar into oblivion last year, and failing, Arizona Public Service now wants to get into the rooftop solar market. On the surface that sounds like a great idea. On the surface it seems as if APS has changed its mind about rooftop solar. But that's not really the story. APS wants to offer rooftop solar on the backs of its ratepayers, collecting the cost of the program and a 10% profit from all APS ratepayers. Problem is, there are plenty of private companies providing rooftop solar to residents, at no cost to Arizonans who don't have solar. The market is doing well, despite APS' many attempts to eliminate competition. But when APS uses ratepayer dollars and guaranteed profits to join the solar club, it gives the utility the opportunity to undercut and drive these private companies out of Arizona. The result is:

Expansion of the monopoly for APS.

If APS really wants to enter the solar market, then it should form an independent, unregulated company that does not rely on recouping its costs from ratepayers and a guaranteed rate of return. Have at it. Let everyone compete.

The rooftop solar market represents the first time the folks at APS have had any real competition. And it's not just from one or two companies. There are lots of eager businesses looking to sell you a rooftop solar system, and that's a good thing. It keeps prices low. It's a new industry that provides jobs. It's a new industry that challenges the status quo. And it scares the daylights out of APS.

Libertarians believe a lack of completion perpetuates the status quo and stifles innovation in both politics and the private sector.

As a regulated monopoly, APS is guaranteed a 10% rate of return from the Arizona Corporation Commission. If you're an APS customer you can't fire them and hire someone else to provide your electricity. If APS is allowed to use those captive ratepayer dollars to drive private rooftop solar providers out of business you won't have any choice in the rooftop solar market as well.

As a Libertarian I think any company has an absolute right to get into the rooftop solar market. But the utility monopoly does not have the right to use the monopoly model to drive competitors out of business. I like solar, but if you're an APS ratepayer you should not be forced to subsidize what should be a private sector endeavor. I say, play fair or don't play at all.

ARIZONA CORPORATION COMMISSION

UTILITY COMPLAINT FORM

About Barry Hess:

Libertarian Barry Hess graduated from Fordham University in New York City and moved to Arizona in 1980. Since then, he has been a powerful force in Arizona politics, and has earned the respect of people from across the political spectrum. In 2012, he spearheaded the largest, most diverse coalition in Arizona history--the first successful Citizen's Referendum in more than 30 years. He is the author of The PeaceMonger, vice-chairman of the Arizona Libertarian Party, and has founded and owned several small businesses.

Subject: Stop APS and TEP from monopolizing solar: TEP: E-01933A-14-0248 APS: E-01345A-13-0140 +
E-01345A-14-0250

Dear Commissioner,

Please reject APS and TEP's attempts to monopolize solar power. These proposals would make ratepayers pay millions for a resource that is already provided through the free market. We recently had solar installed for many reasons. I lost my job and there is a scary promise of inflation that I do not see how it can be managed with low to middle income households in the future. I was excited to take advantage of something so wonderful to help my home and family. It's the sun...it's a natural thing that provides many benefits. I understand APS wanting to keep a foothold But I want to keep my own foothold on having the freedom and ability to easily pay my bills and stimulate the economy in so many other ways...

Don't let APS raise our rates and undercut the solar industry Arizona has worked so hard to build.

Received the following -

I'm appauled at this legislation where APS wants to control how a home owner, in the "Valley of the Sun" loses the benefits or sees those benefits diminished by this proposed legislation. APS just wants to ensure their profits by monopolizing the sun! As a monopoly, APS is threatened by solar competition, so they want to destroy the solar market Arizona has worked hard to build. This is bad for the environment, bad for the middle class, bad for the solar industry, which means it triple bad for Arizona!

Subject: Stop APS and TEP from monopolizing solar: TEP: E-O1933A-14-0248 APS: E-01345A-13-0140 +

E-01345A-14-0250

Dear Commissioner,

Please reject APS and TEP's attempts to monopolize solar power. These proposals would make ratepayers pay millions for a resource that is already provided through the free market.

Don't let APS raise our rates and undercut the solar industry Arizona has worked so hard to build.

Dockets:

TEP: E-O1933A-14-0248

APS: E-01345A-13-0140

Thank you,

Sincerely,

Mike Burlaka
